

SKIDS

Containerised

Prefabricated Powering Solution for Data Centres, Commercial, Industry, Infrastructure

Prefabricated Powertrain - SKIDs	Container Based Solutions for Varied Segments	Savings and Benefits	Marine Electricals Advantage
<p>Adaptable to specific needs of the Application</p> <ul style="list-style-type: none"> In-house Design and assembly expertise for: <ul style="list-style-type: none"> Transformers, MV and LV switchboards, Bus trunking, UPS, automation, connectivity 	<p>For Outdoor Applications</p> <p>Tailored to specific Technical needs</p> <ul style="list-style-type: none"> Compartmentalised Sections Fully Insulated Air-conditioned with climate control Fire resistant up to 2 hours Complete integrity tested at factory CCTV/Access Control /IoT enabled 	<ul style="list-style-type: none"> Civil Construction Transport cost Less Connection cost Less Installation cost Less Space cost Energy Saving No Maintenance Less resources Design time Savings FAT time Transport time Installation time Optimum use of utility space More revenue space Single supplier for all electric distribution Less co-ordination 	<ul style="list-style-type: none"> Well experienced to handle mission critical projects like data centres, defence, O&G Large manufacturing space Integrated facilities for fabrication, painting, assembly for Metal parts, Panels, bus ducts Comprehensive testing facility for electrics, mechanics, integrity tests Experience staff for handling supply chain, transport-inland and overseas, installation of heavy and complex equipment, IoT integration
